/Creative Maverick: Graphic Designer & Coding Enthusiast/

/Here, ideas become graphics, and graphics become works of art/

With every line and color, I capture my imagination, creating a world that enchants and inspires. My creative road map leads toward new aesthetic destinations. Design becomes an adventure, and every next stop is an opportunity to discover the magic of design and creativity.

/I live and work in Thessaloniki as a freelance Graphic Designer/

I discovered my passion for this field early on and began practicing design as a hobby.

Later, I studied at a Public I.E.K.

(Vocational Training Institute) where I earned my degree in this specialty.

I systematically engage with everything related to my work and strive to stay updated on the latest developments. Graphic Design is a fundamental part of my daily life.

As a Graphic Designer, I am highly skilled with any creative software, possess the ability for direct visual communication with clients, and I easily adapt to their requirements and to team projects.
